

Our continuous qualitative growth is based upon the above-average competence of our team and the consequent use of the approved InGenics method. To further upgrade our project team in Atlanta, we are looking for an:

Automotive Systems Planner

Your responsibilities:

- Plan all systems for production processes in bodywork or in assembly in the automobile industry.
- The specification and procurement of system technology and machines is performed in close cooperation with our customers.
- As a qualified contact person for all those involved in the process, you coordinate the selection and procurement as well as design and initialization of the production facilities and control technology, through to approval by the customer.

Your profile:

- Above average technician or engineer qualification specializing in mechanical engineering, electro-technology or control technology or a comparable degree and professional experience, preferably in or for the automotive industry.
- Substantial experience in system construction and with Siemens S7 control technology.
- Proven results in the planning and realization of complex projects.
- Interest in other cultures and the corresponding mobility to enthusiastically take new paths for our national and international customer projects.

Should you be interested, please send your complete application (including resume and cover letter) to Ms. Rebecca Adams, your contact person in Ulm, Germany.
